

COVAPEARL MINI STAR

Cosmetic Fluorophlogopites

Sensient Cosmetic Technologies introduces the Covapearl Mini Star line, a new series of small synthetic fluorophlogopite-based pearls. Covapearl Mini Star pearls exhibit a superior lustrous sparkling effect, brighter color and higher chroma. Excellent transparency, no yellowing nor graying effect, intense pearly effect in mass but transparent pay off. The selected grades have very low heavy metal content and comply with global regulations.
